February 3, 2022 - Jeepers! A New Car Payment...

Well, shifting from world-wide high stress news to local personal minimal stress news just to breathe.

I hate car payments. I have tried to avoid them in this business by buying cheap, near-dead, old Chevy S-10 pickup trucks. I loved the simple 4-cylinder 5-speed economic little trucks but, too many problems were cropping up at the worst times.

Just before our big snow storm in December I went to a car lot and purchased a 2005 Jeep Liberty CRD that appears to be in like new condition mechanically. To do that I did take on a car loan.

Immediately, I got to use it during the snow event. In fact, the photo in the last newsletter of the snow on Griffith Point Road was taken through the windshield of the new Liberty. Hey, to me it is new even though it is 17 years old...

The little diesel Jeep made it through the snow event with flying colors and has already earned a place in my heart. Now if the cost of fuel will drop back where it was a bit over a year ago I can drive it more. The cost of fuel per month is about the same as the new car payment.

I hope and pray for all of us to enjoy this month of Valentine's Day as we try to share friendship and caring love among each other.

By the way, the Jeep has our magnetic signs on the doors and the round spare tire sign on the back. If you see it on the road give me a toot. You will wake me up from yellow-line fever and save our lives! Just kidding but, always good to wave at friends.

Peace, David
